25X1A Approved For R lled to advise that we won one and lost one in East Asia Division. First, the good news -- PMCD has agreed to the 25X1A GS-13 job for the Chief of the 25X1A East Asia. Now the bad news -could not see his way clear to recommend a GS-12 for the number two position in East Asia. However, Walt agreed to re-survey the job approximately 4 months from now to determine whether or not upgrading to GS-12 could be accomplished. 25X1A attempt to re-align duties so as to justify the 12 position during the course of the next review. 25X1A 7/26/73 (DATE)
